Evidence & Insurance Claim Report

Generated automatically on one-tap claim approval · PMFBY / Kharif 2026

ELIGIBILITY RESULT: APPLICABLE

This plot's rainfall deficit, satellite vegetation loss, and geotagged photo evidence together meet the drought damage threshold under PMFBY. Filed via FasalRakshak Kisan one-tap claim on 06 Aug 2026, 08:15 IST — within the 72-hour reporting window.

1. Farmer & Plot Details

Farmer Name	Ramesh Reddy
Registered Mobile	+91 90XXX XXX17
Plot ID	PLT-0417
Village / Mandal	Kaddam, Adilabad District, Telangana
Crop	Cotton (Kharif 2026)
Sowing Date / Stage	12 June 2026 — Flowering stage
Plot Area	1.8 acres
PMFBY Policy Reference	TS-PMFBY-2026-KH-118820

2. Fused Evidence Signals

The eligibility result above is derived from three claim-evidence sources. A fourth signal, the Soil Water Index, is included below for context — it drove an earlier preventive advisory to this farmer and is not required for the claim decision itself.

Signal	Reading	Threshold	Result
NDVI (Satellite)	0.61 → 0.34 (-44%)	≥ 30% drop	Breached
Weather Anomaly	-38% rainfall (14-day)	≥ 25% deficit	Breached
Geotagged Photo	Submitted, GPS-matched to plot	Ground-truth required	Confirmed
Soil Water Index (context)	0.21 (Low), declining 9 days prior	Advisory only	Advisory issued 28 Jul

Signal agreement: 3 of 3 claim-eligibility sources confirmed (NDVI, weather anomaly, photo). Confidence score: 92%.
Neighbouring-plot corroboration: 4 other enrolled plots in Kaddam village breached the same drought threshold in the same 7-day window.

2.1 NDVI Detail (Sentinel-2)

Imagery Dates

Before: 14 Jul 2026 | After: 04 Aug 2026

NDVI Before	0.61 (Healthy vegetation)
NDVI After	0.34 (Significant stress)
Change	-44% relative decline
Resolution	10m (Sentinel-2 L2A)

2.2 Soil Water Index (SWI) Detail

Source	Sentinel-1 SAR-derived soil moisture proxy
Current SWI	0.21 (Low)
7-Day Trend	Declining since 26 Jul 2026
Role in This Claim	Triggered preventive irrigation advisory on 28 Jul 2026 (not used as claim evidence)

3. Geotagged Farmer Photo

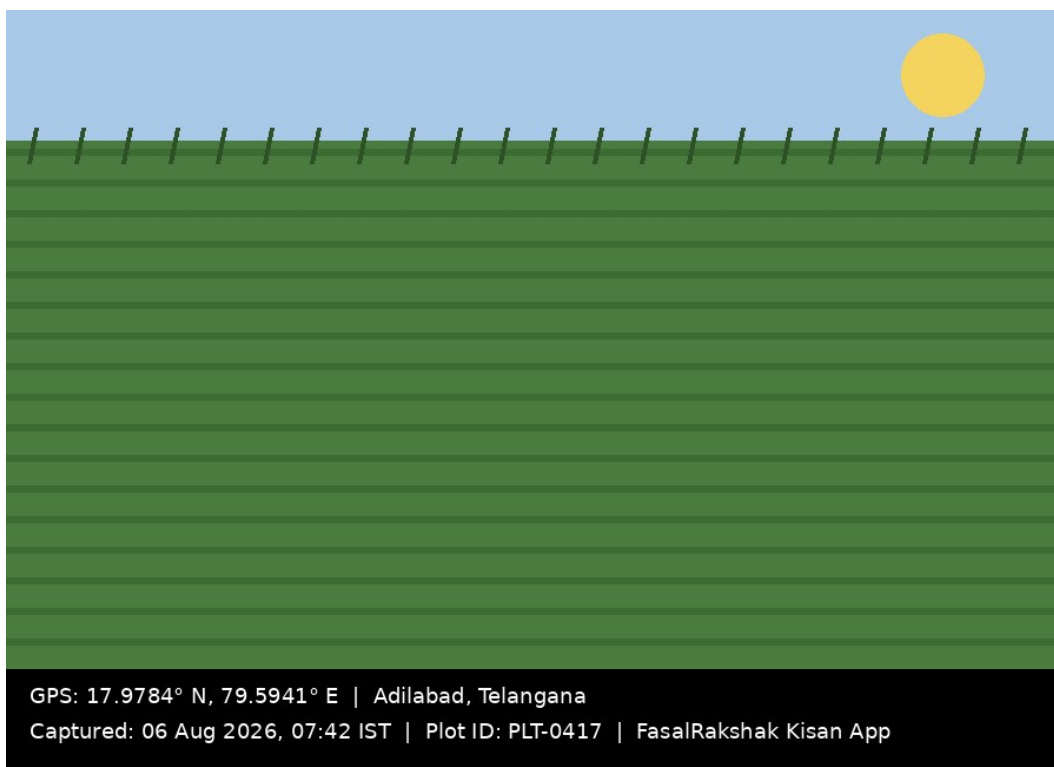

Photo submitted via FasalRakshak Kisan app. GPS coordinates matched to enrolled plot boundary (PLT-0417) within 12m tolerance. Timestamp verified against device clock at capture.

4. Insurance Claim Request Letter

To,

The Claims Officer,
Pradhan Mantri Fasal Bima Yojana (PMFBY) — Telangana Implementing Agency
Adilabad District Office

Subject: Crop Loss Claim — Policy Ref. TS-PMFBY-2026-KH-118820, Plot PLT-0417

Respected Sir/Madam,

I, Ramesh Reddy, an insured farmer under the above PMFBY policy for Kharif 2026, am writing to formally report crop damage to my cotton crop (1.8 acres) at Plot PLT-0417, Kaddam Village, Adilabad District, Telangana, due to drought conditions during the flowering stage of the crop.

This claim is supported by satellite vegetation health data (Sentinel-2 NDVI) showing a 44% decline in crop vigour, weather station data confirming a 38% rainfall deficit over the preceding 14 days, and a geotagged photograph of the affected field, all attached to this report. Four neighbouring enrolled plots in the same village independently show the same damage pattern in the same period.

This report was generated and submitted within 72 hours of the damage threshold being confirmed, in accordance with PMFBY reporting requirements. I request that this claim be processed and the applicable compensation be released at the earliest.

This request was filed via the FasalRakshak platform with the farmer's explicit one-tap voice confirmation on 06 Aug 2026, 08:15 IST (consent log ref: CNS-0417-0806).

Yours faithfully,

Ramesh Reddy

Registered Farmer, Plot PLT-0417

5. Explainability Note

This report was generated automatically by FasalRakshak on farmer approval. It is not a substitute for official assessment but is intended to accelerate and evidence a PMFBY claim within the scheme's 72-hour reporting window. All source data (satellite imagery, weather records, photo metadata) is retained and available on request for verification.

Enterprise reference: this report is available in the FasalRakshak Enterprise claim queue under Report ID FR-CLM-2026-000417 for officer review and formal PMFBY submission.
